

# THE Big 3

EPISODE: 307

TITLE: More Surprising Trends For The Future Church

No one knows for sure how or when restrictions on church gatherings will be lifted. But one thing is certain... everything is changing!

Here are three more key things to believe and consider about the future of the Church...

1. **Church leaders who choose to lead others to embrace discipleship as a way of life will need to first humbly embrace this lifestyle anew for themselves and their families.** It can be scary to admit we don't know everything, but who does?! God gives grace to the humble and will lead you every step of the way if you ask him and step out in faith.
2. **The power that raised Christ from the dead lives within us and will lead us into the future for God's glory.** So many people feel too busy or too stressed to embrace a lifestyle of discipleship in community with others. And to that I say, "You are—apart from the power of the Spirit!" Remember, God always provides for that which he calls his people to. And he has clearly called and commanded us to make disciples in all of life. You can trust him.
3. **Slow is fast when it comes to learning new rhythms and introducing change.** It is never too late to start. The opportunity to live the life that Jesus commanded us to live as disciples who make disciples, flows out of our true gospel identity. The future is now... go for it! Take others with you. Get registered for the Everyday Disciple Challenge, invite your family, friends, small group, and leaders to join you and get started with a proven framework and tools that are working all over the world in every context.
