

**EPISODE:** 340

**TITLE:** Discipleship: Embracing The New Normal

The way many are engaging in church and their faith has forever changed. Will the Church change too? Now is the time to start new discipleship rhythms!

Here are 3 things to believe and consider about discipleship in the “new normal”...

1. **The ways that many Christians are engaging in their Church lives has changed drastically.** Things will never return to the way they were. Now is the time to start new discipleship rhythms and show others what a lifestyle of discipleship and mission looks like. Not old programs retreaded for the live stream or just done in a house... a lifestyle of discipleship lived out of our gospel identity, modeled for others to experience and join us.
2. **God is not measuring your performance or church numbers and basing his love for you on those things.** Jesus' life, death, and resurrection have accomplished the work of restoring us to a right relationship with God that never has to be earned. You are a dearly loved son or daughter of a perfect Father and part of his forever family. Now you get to live as a missionary as you make disciples of Jesus.
3. **Many of us were not fully disciplined in a way where the gospel touched down in all of everyday life in community.** How will we disciple others in things we have yet to experience? Get the training and encouragement you need to get started with new discipleship rhythms and grow in your gospel fluency. Please join me in the Everyday Disciple Challenge and invite others that you love to have this experience with you!

During this INFO & ACTION-PACKED 4 Days, I'll walk you through exactly how we do Everyday Discipleship... This is how the Church is embracing the new normal!
